

Differences Sudoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A number between two cells indicates the difference of the numbers in these cells. A number between four cells indicates the difference between two diagonally adjacent cells, either top left + right bottom (\) or top right + bottom left (/). If one of the characters < or > is specified the apex of the angle points to the smaller of these numbers.

(Solution)

		5						
						3		/5
		\1		\1	\2			
6		/4		/2	/4	1		3
			4					
8					1>			
			/5			5		5
	\6			2				
					/3	6		
	\1							1>
		4	1<		3
