

Makodoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A cross between two cells indicates that the product of the numbers in these cells is less than 10. A plus between two cells indicates that the sum of the numbers in these cells is less than 10. If the sum and product are less than 10, then there is a cross between these cells. If there is no sign between two cells, then both sum and product are at least 10.

(Solution)

The grid is a 9x9 square divided into 3x3 regions by thick lines. The grid contains various signs (+ and x) between cells and some numbers (6 and 3) placed in cells. The grid is as follows:

				+		+	+	x
	x	+				+	+	x
+	x	+	+	+			+	
x			x	+	x	+		
x	+		6		x	+	+	x
x					+			+
+			+	+	x	x		
+	+	+			3			+
+	x					x	+	+
+			+	x	x	+	+	
		x	x	+	+			
		x	+	+			+	+
