Makodoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A cross between two cells indicates that the product of the numbers in these cells is less than 10. A plus between two cells indicates that the sum of the numbers in these cells is less than 10. If the sum and product are less than 10, then there is a cross between these cells. If there is no sign between two cells, then both sum and product are at least 10.

1	+ <i>5</i>	8	<i>3</i> -	 -	7	9	6 -	+ 2
× 2 >		7 -		+ <i>6</i>	9	8	5 -	+ 4
