

## Quotients Sudoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A number between two cells indicates the quotient of the numbers in these cells. A number between four cells indicates the quotient between two diagonally adjacent cells, either top left + right bottom ( $\backslash$ ) or top right + bottom left ( $/$ ).

(Solution)

|  |  |                  |                  |                  |                  |                      |       |       |
|--|--|------------------|------------------|------------------|------------------|----------------------|-------|-------|
|  |  |                  |                  |                  |                  | 7                    |       |       |
|  |  | $2/3$            | $/1/2$           |                  |                  |                      |       |       |
|  |  | 9                |                  |                  |                  |                      |       |       |
|  |  |                  | $1/3$            |                  | $\backslash 1/7$ |                      |       |       |
|  |  |                  | $5/6$            |                  |                  |                      | $2/3$ |       |
|  |  |                  |                  |                  |                  |                      | $2/7$ |       |
|  |  | $1/4$            |                  |                  |                  |                      | $6/7$ |       |
|  |  | $1/2$            |                  |                  |                  | $3/5 \backslash 1/5$ |       |       |
|  |  |                  |                  | $/5/8$           |                  |                      |       |       |
|  |  |                  |                  | $5/8$            |                  |                      |       |       |
|  |  |                  |                  |                  |                  |                      | $2/3$ | $1/4$ |
|  |  |                  |                  |                  | 9                |                      |       |       |
|  |  | $\backslash 1/6$ | $\backslash 3/7$ | $\backslash 2/3$ |                  |                      |       | $3/5$ |
