1 9 3x3 staircase sudoku puzzle

Staircase Sudoku is a variation of the classic 9x9 Sudoku puzzle. It features a staircase-shaped grid of 27 cells, with 9 rows and 9 columns. The grid is composed of three 3x3 blocks arranged in a staircase pattern. The top-left block is a standard 3x3 grid. The middle block is a 3x3 grid shifted one row and one column to the right. The bottom block is a 3x3 grid shifted two rows and two columns to the right. The numbers 1 through 9 must be placed in the grid such that no row, column, or 3x3 block contains the same number more than once.
