

Sudoku dei Quozienti

Inserisci i numeri da 1 a 9 in ogni casella vuota in modo che ogni numero appaia esattamente una volta in ogni riga, colonna e regione 3x3.

Un numero tra due celle indica il quoziente dei due numeri. Se il numero è tra quattro celle, indica il quoziente tra le coppie diagonali (\searrow o \nwarrow).

4	1	6	9	2	3	8	7	5
2	3	5	6	8	7	1	9	4
7	9	8	1	4	5	3	6	2
9	5	7	4	1	2	6	8	3
3	6	1	7	5	8	4	2	9
8	2	4	3	6	9	7	5	1
5	7	2	8	3	1	9	4	6
6	8	3	5	9	4	2	1	7
1	4	9	2	7	6	5	3	8

Annotations in the grid:

- Row 1: Quotient 5/9 between cells (8,1) and (9,1).
- Row 2: Quotient 1/7 between cells (7,2) and (8,2); Quotient 1/9 between cells (8,2) and (9,2).
- Row 3: Quotient 3/7 between cells (7,3) and (8,3).
- Row 4: Quotient 7/8 between cells (6,1) and (7,1); Quotient 1/7 between cells (7,1) and (8,1).
- Row 5: Quotient 1/5 between cells (6,2) and (7,2); Quotient 1/2 between cells (7,2) and (8,2).
- Row 6: Quotient 8/9 between cells (6,3) and (7,3).
- Row 7: Quotient 1/9 between cells (7,4) and (8,4).
- Row 8: Quotient 1/6 between cells (7,5) and (8,5); Quotient 1/8 between cells (8,5) and (9,5).
- Row 9: Quotient 2/3 between cells (7,6) and (8,6).
