

## Sudoku 147

Coloque os números de 1 a 9 em cada quadrado vazio para que cada número apareça exatamente uma vez em cada linha, cada coluna e nas 9 regiões 3x3.

As células com círculos devem conter os números 1-2-3, as células com quadrados devem conter os números 4-5-6, e as células vazias devem conter os números 7-8-9.

(Solução)

|                          |                          |                          |                          |                          |                          |                          |                          |                          |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
